The Clancy Group
Unit 2 Faraday Office Park
Rankine Road
Basingstoke
RG24 8QB

Dear Resident,

My name is Paul Grandjean-Smith, Site Manager at Clancy. We are carrying out works on behalf of Scottish and Southern Electricity Networks (SSEN), who own and operate the electricity infrastructure in your area, including overhead lines, underground cables, and substations supplying power to the local community.

We are scheduled to commence works on 30th October 2026. These essential works involve the installation of new underground Extra High Voltage (EHV) cables to help futureproof the local electricity network and ensure a safe, reliable, and resilient power supply in response to increasing demand.

The works are expected to last approximately 9 month and will involve excavation works along Palmers Lane, Riders Lane, Burnthouse Lane, Pingewood Road South. During this time, our teams will install new ducting, backfill excavations, and fully reinstate the carriageway upon completion.

Please be assured that your electricity supply will not be interrupted during these works.

For the safety of both our workforce and all road users, permission has been granted to implement a road closure bring on Palmers Lane and Riders Lane then on to Burnthouse Lane and Pingewood Road South. A diversion route plan is attached for your reference.

Any access arrangements affecting residents will be communicated clearly in advance of the closures. Access to side roads and driveways will be maintained at all times wherever possible, and refuse collections will continue as normal.

We appreciate that these works may cause some temporary inconvenience and would like to thank you in advance for your patience, understanding, and cooperation while we complete these essential improvements as safely and efficiently as possible.

Should you require any further information, or if you have any specific access requirements you would like to discuss, please contact:

fleetandbramleyinfo@theclancygroup.co.uk

Yours faithfully,

Paul Grandjean-Smith,
Site Manager
Clancy
